

Regulating the status of persons not registered in the Register of Births

ABOUT MYLA CONTACT US AREAS OF WORK PUBLICATIONS PUBLIC CALLS

The statelessness, the lack of registered status and lack of personal documentation is a serious problem when it comes to enjoyment of the basic social and economic rights for many persons living in Macedonia.

Poverty, marginalization and discrimination are a “standard” part of life for most of them. Stateless children are mostly concerned, bearing in mind that the basic rights are a luxury possessed by most of the children, but not by them.

The Public Call of the Ministry of Labor and Social Policy and the Office for Management of Registers of Births, Marriages and Deaths, was closed on the 1st of November 2018. The Public Call resulted with identification of **700 persons who did not possess any personal documents.**
